Product Spotlight

Insulation Thermistor

Overview

This is insulation wire type thermistor used for temperature measurement and control, featuring high accuracy and fast response time.

Applications

- Industrial electronics
- Automotive Heating systems (Steering wheel temp, Seat heater Temp)
- Automotive Engine Temp
- Automotive Coolant Temp

Features

- Small and compact, quickly response to heat
- Easy to assemble, and can be miniaturized
- Resistance and B constant tolerances are small under wide temperature range
- RoHS Compliance (Directive 2011/65/EU)
